84th EAS Congress in Innsbruck – thank you

Dear Hans, dear Florian, dear Gert, dear Wolfgang,
dear colleagues on the local organizing committee,

On behalf of the EAS Executive Committee, this letter is sent to formally recognize and thank you and the local organizing team of the EAS 2016 Congress in Innsbruck for the truly outstanding contribution to the success of the meeting.

The feedback we have received about the meeting from both delegates and sponsors has been extremely positive. We were very pleased that the Congress attracted over 2000 delegates, and happy to see full session halls and active poster discussions – testament to the high quality of the scientific programme, with the Anitschkow Lecture and Professor Brown's Keynote Lecture being outstanding highlights.

The logistics of the meeting went smoothly on site – please convey our thanks to your local colleagues and the team at the convention centre. And, of course, the social events, and the beautiful environs of the Tyrol will I'm sure long remain happy memories for delegates and faculty alike.

The finalization of the accounts brings the business of the Congress to a close, and I am pleased to report that the meeting was also financially successful. EAS office will send you details of the balance of accounts in a separate communication.

Your enthusiasm and hospitality, right from the outset, has made it a true pleasure to work with you all. Thank you all for your collaboration in a truly special Congress.

Kind regards

Alberico L. Catapano
President, EAS
